Mr. Jerry Walton
3461 S. Barbett
Springfield, MO 65804

Dear Mr. Walton:

This office has been advised that you are dumping waste oil around stumps on the property at 3461 South Barbett in Springfield, Missouri.

Please find enclosed the copy of the waste oil rule. Section (1)(D) states that waste oil shall not be disposed of into the environment. This includes the use of waste oil as a weed or dust control agent.

If you are dumping waste oil, you could be in violation of the enclosed regulation as well as Missouri Revised Statute 260.380.2(1) for posing a threat to the environment and creating a public nuisance.

You should immediately discontinue dumping waste oil and any which you have on hand should be properly handled for recovery. You should also remove any visibly contaminated soil and properly dispose of it. Small amounts of waste oil contaminated soil can generally be disposed of at a sanitary landfill.

Your cooperation in this matter will be appreciated and expected. If you have any questions, please let us know.

Sincerely,

SOUTHWEST REGIONAL OFFICE

Charles L. Kroeger
Environmental Specialist
